## **Detailed Action**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5-28-08 has been entered.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1, 3-23, 28-29 and 32 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 1 is not a patent eligible process/method claim in that it is not tied to another statutory class of invention in that no other statutory class of invention is positively recited in the claim and further the claim does not disclose transforming subject matter to another state or thing.

### ***Response to Arguments***

Art Unit: 3643

3. Applicant's claim amendments dated 5-28-08 obviate the prior art rejections set forth in the office action dated 1-4-08, however it is deemed that applicant's claims are drawn to a non-statutory subject matter as set forth above in paragraph 2 of this office action.
